

Multisol Limited and Multisol Europe Limited Health and Safety Policy Statement

Multisol Limited and Multisol Europe Limited (Multisol) market and distribute chemical and oil based products, and offers toll processing, blending, storage, procurement and technical development services. These products are key materials in most sectors of the manufacturing industry. Multisol commits to achieving the highest standards with regards to Health and Safety matters arising out of its activities.

Multisol regards the Health and Safety of its employees and stakeholders as paramount at all times. Multisol is fully committed to safety best practice incorporating BS OHSAS 18001 and the Chemical Business Association's Responsible Care Programme and takes responsibility across all of our business activities.

Multisol has acknowledged these responsibilities by publishing the Health and Safety Policy, and is committed to implementing the actions stated in this Policy. In order to achieve this objective, top management accepts ultimate responsibility and strives to incorporate safety goals into the Multisol's strategic business planning.

Multisol uses a comprehensive integrated management system, which ensures compliance with all Safety Legislation, Regulations, Codes of Practice and any other Standard to which the company subscribes. Our activities take into account the needs and expectations of customers, employees, suppliers and other interested parties.

Multisol will strive to adopt the highest Safety standards in all areas of operation, meeting and exceeding all relevant legislative requirements, and meet the following safety objectives:

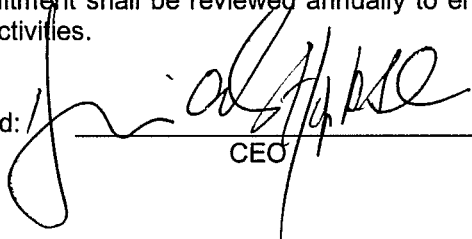

- To comply with current relevant legislation and regulatory control, including applicable codes of practice and industry standards.
- Regular communication and involvement of employees at all levels.
- To maintain a safe and healthy working environment through safe practice and effective training, promoting the commitment and involvement of all employees in improving safety performance.

This system is actively managed to ensure that it is meeting the above objectives by:

- Total commitment and involvement of all staff through training and clearly identified responsibilities.
- Risk Assessments maintained and reviewed regularly.
- Regular audits and reviews to monitor performance and the effectiveness of the systems.

This commitment and the performance levels are endorsed by Multisol's Board of Directors who shall allocate sufficient managerial and staffing resources and funds to ensure the management systems and objectives can be effectively developed and progressed. This commitment shall be reviewed annually to ensure it continues to reflect Multisol's objectives and activities.

Signed:

CEO
