

Multisol Limited and Multisol Europe Limited Quality Policy Statement

Multisol Limited and Multisol Europe Limited (Multisol) market and distribute chemical and oil based products, and offers toll processing, blending, storage, procurement and technical development services. These products are key materials in most sectors of the manufacturing industry.

Implementing an Integrated Management System which incorporates ISO 9001, we ensure that our activities take into account the needs and expectations of customers, employees, suppliers and other interested parties.

Our goals are to provide excellent quality products and customer service, achieve high levels of customer satisfaction, and maintain strong supplier and customer relationships. This is realised through the commitment, training and involvement of all staff, effective communication with customers and suppliers, and continual review and improvement of our Quality Management System (QMS).

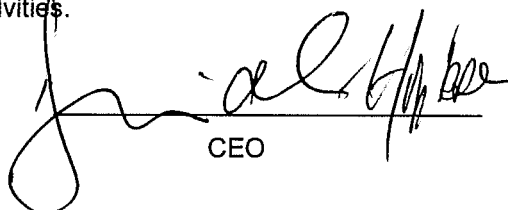

In order to improve performance, and to maintain Multisol's position as a competitive market leader, the following quality objectives have been set:

- Comply with current relevant legislative and regulatory control, including applicable codes of practice and industry standards.
- Achieve a high level of customer satisfaction by providing the right product, in full and at the right time.
- Plan and carry out operations in a controlled manner, by trained personnel and using suitable equipment and resources.
- Regularly review and continually improve our processes.
- Report Key Performance Indicators and the effectiveness of our QMS to top management.
- Maintain the integrity and security of all information and property pertaining to our own business and that of our customers and suppliers.

By publishing this Quality Policy, Multisol acknowledges these responsibilities and commits to implementing the actions stated in this Policy.

This commitment and the performance levels are endorsed by Multisol's Board of Directors who shall allocate sufficient managerial and staffing resources and funds to ensure the management systems and objectives can be effectively developed and progressed. This commitment shall be reviewed annually to ensure it continues to reflect Multisol's objectives and activities.

Signed:

CEO
