

INTRODUCTION FROM THE CEO

Multisol Limited operates to the highest standards of safety, quality, professionalism, integrity, health and environmental management, an ethos demanded of every employee. Multisol Limited and its associated companies ("Multisol") are committed to improving our practices to prevent all forms of modern slavery (including slavery, servitude, forced or compulsory labour and human trafficking, as well as child labour), taking place in any part of our business, or supply chain. This statement sets out the steps we have taken during the previous financial year to implement this commitment and we expect the same commitment from our suppliers, contractors and business partners.

Organisation Structure

Multisol is a market leader in the formulation, blending and distribution of high value fuel and lubricant additives, base oils and speciality chemicals. Multisol was established in 1968 and operates across Europe Africa and the Middle East, employing around 170 people at facilities in UK, France, Russia, Mauritius and South Africa. Multisol was acquired by the Brenntag Group in 2011.

Our Supply Chain

We distribute a portfolio of products from our industry leading suppliers, and support the delivery of these products to our customers, ranging from global technology leaders and multinational petrochemical companies to regional and local industrial businesses and fuel and lubricant end users. Multisol UK holds certification for: ISO 9001, ISO 14001, BS OHSAS 18001, ESAD and is committed to the CBA's Responsible Care initiative.

Our Policies

For many years, Multisol and our parent company, Brenntag UK Holding Limited have been committed to the highest standards of business conduct and ethics in our operations and supply chain. This commitment forms a cornerstone for many of our policies, procedures and our approach to business.

Safety is the top priority at Multisol and responsibility and sustainability are fundamental aspects of the corporate strategy. Multisol recognizes that only through the joint commitment of all stakeholders within the chemical industry can we be sure that any form of slavery is eradicated. Sustainability issues such as health, safety and environmental protection, working practices, supplier management and governance are increasingly important criteria when choosing business partners and making purchasing decisions. Therefore, Brenntag maintains a close and ongoing dialogue with its suppliers and customers.

Our Anti-Slavery, Child Labour and Human Trafficking Policy prohibits the use of child or forced labour in our business and any involvement by Multisol with entities that support prohibited labour practices or human trafficking, including slavery, bonded labour or debt-bondage, or securing labour or services by force, threat, or deception.

Multisol's supplier/subcontractor requirements mandate that our subcontractors and suppliers adhere to Multisol policies. Multisol expects a joint commitment from its suppliers and subcontractors in support of business conduct and ethics and sustainability and against all forms of slavery and human trafficking. Accordingly, our standard form subcontractor/supplier agreements oblige suppliers and subcontractors to acknowledge and comply with Multisol's policies in this regard.

Effective Risk Assessment and Management

Multisol has processes in place to support on-going assessment and management of risks associated with our partner engagements, direct business operations and business relationships. We will not work with customers, suppliers or sub-contractors who do not share our commitment to high ethical standards, particularly in relation to modern slavery.

Our Code of Business Conduct & Ethics and whistleblowing policy provide a process for reporting or raising concerns about any wrongdoing to the Group Compliance Officer, in confidence and without fear of retaliation.

Communication

To ensure a high level of understanding of the risks of modern slavery and human trafficking in our supply chains and our business, we provide group-wide training to staff. All Directors have received such training and are committed to the subject. The training criteria are continually assessed to ensure all staff receive regular training.

Progress and Next Steps

Following Multisol's recognition in 2016 that exposure to the risk of slavery and human trafficking is present in all aspects of our business operations and supply chains, we identified that the greatest risk existed with our subcontractors and suppliers. Given our global platform we were aware that different geographic locations and sectors presented higher risks of slavery and human trafficking than others. Membership of global programs, through our parent company Brenntag UK Holding Limited, has continued to help us to manage this risk.

During the financial year that ended 31 December 2018, Multisol has continued to develop and enhance our risk assessment processes, specifically the recording of the due diligence done with our Suppliers. A new Supplier Database has been created to capture the improved and detailed information the Supplier's now provide to the Multisol Group on their policies, procedures and processes in relation to Modern Slavery Act offences adding greater structure and transparency to this process.

Furthermore, as part of this continued development, a programme is underway to ensure Multisol have a consistent approach to the escalation of any areas of concern internally and with the third party directly. Multisol maintain a right of veto in relation to the use of subcontractors that are not able to provide Multisol Group with enough confidence that the relative protections are in place.

Multisol shall also continue to review our compliance with Brenntag policies, processes and training to make sure they appropriately address our commitment to eliminate slavery and human trafficking from our operations.

This statement is made pursuant to section 54(i) of the Modern Slavery Act 2015 and constitutes the Modern Slavery statement for Multisol Limited and its Subsidiaries and Affiliates.

Signed on behalf of the Board of Directors and Executive Committee:

David Hopkinson

Chief Executive Officer

Signed: June 2019 for financial year 2018 (1 January 2018 to 31 December 2018) for Multisol Ltd, it's subsidiaries and affiliates.
